Dear Mr. Sorrels:

I am making a study of the Warren Commission Report and would appreciate it if you could comment on several points not covered in your testimony before the Commission.

I believe you stated that you returned from the hospital to the Texas School Book Depository in a city police car. Were you accompanied by any of your fellow agents on this return trip?

Also, can you recall whether or not there were any Secret Service personnel at the scene of the Assassination when you returned, or were you the first agent at the scene?

Your kind reply to my inquiry would be most appreciated.

Sincerely,

Emory L Brown

Mr. Brown:

The only statement that I have made regarding the assassination was given to the Warren Commission and I have refrained from giving any other statements. Sorry!
